### Minutes:

- Approval of minutes from January 12 meeting.
  - Minutes of the previous meeting were approved.
- Review of [action items](#) from the previous meeting.
  - Decisions about base images for installers will be worked in a Github issue and brought back to the PMC for approval.
  - ACTION: Stewart to create an issue to decide upon the set of base images used in Temurin installers.
- Linux support policy and statement.
  - Deferred from previous meeting.
  - The proposed statement is approved by the PMC for sharing as our policy.
- January CPU release status
  - Expected upstream source code GA is 2022-01-18
  - Planned Temurin CPU releases 17.0.2, 11.0.14, 8u322
  - Tracking issue [adoptium/adoptium#109](#)
  - 11.0.14 in progress and under test.
  - 8 not yet finalized in source project, so being preemptively built, but may need respinning if upstream tag moves.
  - 17 not yet tagged upstream.
  - No unexpected issues at this point.
- Discussion of Adoptium marketplace processes and API.
  - Proposal to create the schema for the marketplace data API.
  - Create an issue in the API repo to track the definition.
- Discussion of new website
  - Goal is to add new documentation into the proposed new website and out of Google docs so that it is generally available.

- Discussion of where the docs should reside, documentation repo or the main website repo. It may be helpful to let the website pull documentation from sub-projects.
- Plan to start by putting into the documentation repo.
