

Adoptium

Project Management Committee

Agenda & Minutes

“The PMC as a whole, and the PMC leads in particular, are ultimately responsible for ensuring that the Eclipse Development Process is understood and followed by their Projects. The PMC is additionally responsible for maintaining the Top-Level Project’s charter.” [\[ref\]](#)

Date: 2021-November-24

Agenda:

- Approval of minutes and review of [action items](#) from the previous meeting.
- Status of the October PSU release.
 - Checklist [adoptium/adoptium#83](#)
 - Platform status [adoptium/adoptium#81](#)
- Status of JREs
- Alibaba proposals for CI & AQA vit contributions
- ci.adoptopenjdk.net upgrade plan
- Linux installer progress
- [JFrog repository](#) progress

Action items:

Date	Description	Status
2021-06-30	ACTION: Hendrik to write a README for how to get to the Zenhub views of issues in the repos. for newcomers. Issue: https://github.com/adoptium/adoptium/issues/60	Open
2021-10-20	ACTION: George to look at providing “obsoletes” RPM packages for publication to JFrog to replace adoptopenjdk	In progress: Checked for .deb

2021-11-10	ACTION: George to create repository for hosting the Linux install files prior to pushing them to a yum/apt repository	Obsolete
2021-11-10	ACTION: George to submit PR for updates to releasing documentation.	Open
2021-11-17	ACTION: Tim to raise in the PMC channel the topic of producing JREs to allow comment by members absent from this meeting.	Completed

Attendees:

- ✓ George Adams
- ✓ Stewart Addison
- ✓ Hendrik Ebberts
- ✓ Tim Ellison
- ✓ Severin Gehwolf
- ✓ Shelley Lambert
- ✗ John Oliver
- ✓ Martijn Verburg

Meeting called to order at 14:03 GMT

Minutes:

- Approval of minutes and review of [action items](#) from the previous meeting.
 - Minutes of the previous meeting (Nov 17) were reviewed and approved.
 - Noted that the action for moving publishing of nightlies to earlier in the pipeline was completed by determining that it is possible, but the work to do so is not yet completed.
 - Actions were reviewed. Noted that documentation is coming on for all areas, and currently in use by newcomers to the project.
 - Obsoletes directives are being put into the deb packages, and proposed for the rpms.
- Status of the October PSU release.
 - Checklist [adoptium/adoptium#83](#)
 - Platform status [adoptium/adoptium#81](#)
 - No news since last week.
- Status of JREs
 - <https://github.com/adoptium/temurin-build/pull/2718> needs reverting to enable JRE production.
 - Rebuild from original source code and publish via Java 17 builds.
- Alibaba proposals for CI & AQA contributions
 - Alibaba have been invited to a future community or PMC meeting to discuss their future contribution proposal.
 - Already have some incoming system tests around security, Netty, and Spring.
 - Joey already has a branch with tests that are ready to be contributed.

- ci.adoptopenjdk.net upgrade plan
 - Question about any further work or consideration of this topic.
 - Requires further discussion with the Eclipse infra team to ensure we have a suitable solution.
 - ACTION: Martijn to talk to the Eclipse infra team (Fred Gurr) about options for Adoptium build systems as a replacement for our main Jenkins system.
- Linux installer progress and [JFrog repository](#) progress
 - JFrog repo is now live. Still awaiting the CNAME change to be applied before advertising more widely to avoid people having to change location naming in the future.
 - Working Group will be required to approve the SSL certificate to proceed with CNAME changes.
 - Automatic uploading of deb is completed, and rpm PR is underway. Should be completed shortly.
 - Multi-arch deb files are now being produced.
 - The Adoptium ca-certs package is not needed for RPMs.
 - Current blocker is gpg signing of the deb metadata, an open issue with Artifactory.
