

# Adoptium

## Project Management Committee

### Agenda & Minutes

“The PMC as a whole, and the PMC leads in particular, are ultimately responsible for ensuring that the Eclipse Development Process is understood and followed by their Projects. The PMC is additionally responsible for maintaining the Top-Level Project’s charter.” [\[ref\]](#)

---

Date: 2021-April-21

#### Agenda:

1. Adoptium Linux installers (new repo / hosting)
2. Moving AdoptOpenJDK TSC Issues to PMC 'project
3. Engineering and Product Management Approaches for Adoptium (<https://github.com/AdoptOpenJDK/TSC/issues/220>)
4. Ship firewall back to Nine co-lo?
5. API design ideas and discussion of migration plans
6. Feeding back to WG about platform/OS/codestream priorities for budget
7. IcedTeaWeb functional regression in Temurin8 - how to address
8. Adding required notices to repos and builds
9. Updating name of runtime in properties etc.
10. Planning for April PSU respin as Temurin (Eclipse incubator release)

#### Attendees:

- George Adams (Microsoft)
- Martijn Verburg (Microsoft)
- Tim Ellison (Red Hat)
- Stewart Addison (Red Hat)
- Shelley Lambert (Red Hat)
- John Oliver (Microsoft)

#### Minutes:

1. Adoptium Linux installers (new repo / hosting)
  - a. Andreas has a repo containing installer rework. Can ask him to bring these into Adoptium. Will need testing as a replacement. Shelley Lambert to capture in a TSC issue.
  - b. This would be imported into Adoptium and rebranded as Temurin installers.

2. Moving AdoptOpenJDK TSC Issues to PMC 'project'
  - a. George Adam: Strategy for carry forward?
  - b. Treat adoptium/adoptium repo as the WG location, and adoptium/adoptium-PMC (name TBD) as the PMC location
3. Engineering and Product Management Approaches for Adoptium
  - a. Discussion of #220 issue.
  - b. Convert into a “way we work” document as expected practice for projects running under Adoptium TLP. Will aid with oversight of projects by Adoptium PMC.
4. Ship firewall back to Nine co-lo?
  - a. Expectation is that this should go back to Nine.
  - b. Tim Ellison to arrange shipping back
  - c. George has some details to accompany it
5. API design ideas and discussion of migration plans
  - a. Marketplace API: the API is a catalog of third-party offerings, whereas the existing API is our view of a discovery and download API.
  - b. Details of metadata to be returned TBD
  - c. What happens to the api.adoptopenjdk.net?
    - i. Hotspot calls could be served for adoptopenjdk builds, then redirected to temurin thereafter
    - ii. OpenJ9 could serve existing binaires, but then HTTP/410(?) for subsequent builds
6. Planning for April PSU respin as Temurin (Eclipse incubator release)
  - a. People becoming available to look at this
  - b. Start working on getting nightlies of Temurin underway
  - c. Create an issue to capture the new requirements of the Temurin release.
  - d. Codesigning expected to be a problematic step required in Eclipse process.
    - i. Remove LJC code signing certificates early
  - e. Tag repo in current state so we can roll back if required.
  - f. Update to release process checklist
  - g. George will create project board for Eclipse release tasks
