Meeting called to order at 14:04 GMT

Minutes:

- Approval of [minutes](#) from November 2nd meeting.
 - Minutes of the previous meeting were approved.
- Review of [action items](#) from previous meetings.
 - Stephanie has started to look at how to remove the existing patches.
- October PSU release status
 - Release checklist ([adoptium#179](#))
 - Platform status ([adoptium#180](#))
 - October PSU done. Thanks to all who contributed to the release.
- packages.adoptium.net outage ([adoptium-support#632](#))
 - Artifactory outage for 10 hours last night due to JFrog removing the provision unexpectedly. This was picked up by the status monitor.
 - This was restored promptly by JFrog upon request, but with request for a follow-up.
 - Consider discussion with the EF CDN as a back-up mirror for future fail over.
 - Expect that EF CDN would not be suitable for a primary distributor due to the bandwidth required.
 - Aim to get further stats from JFrog about the current usage.
 - We can encourage people to mirror the repo.
- UBI docker images status ([containers#308](#))
 - PR has been raised for these to be built upstream in Docker.
 - In parallel we will smoke test the images we built there.
- AoB
 - Temurin compliance loaner agreement

- i. Plan to procure machines in PRC for use by local teams rather than ship them.
- Microsoft are now in the Adoptium marketplace!
