### Minutes:

- Approval of [minutes](#) from March 1st meeting.
  - Deferred until later in the meeting due to lack of quorum.
- Review of [action items](#) from previous meetings.
  - Action items were reviewed and updated.
- Review [GitHub issues flagged for PMC agenda](#).
  - <https://github.com/adoptium/adoptium/issues/201>
    - i. The issue was discussed. No follow-up required by PMC.
  - <https://github.com/adoptium/installer/pull/612>
    - i. PMC agreed that if this breaks existing paths then it is unacceptable and preference is that the scripts or instructions should be clarified, or an aliased path also available.
    - ii. No further PMC follow-up required.
  - <https://github.com/adoptium/temurin-build/issues/3270>
    - i. Deferred until Andrew is available to present the topic.
  - <https://github.com/adoptium/adoptium/issues/213>
    - i. Continue with investigation and solution proposition.
    - ii. Noted that it will require Eclipse IP clearance to bring in this new dependency.
- Temurin v20 release
  - No further information on this topic at the moment. Keeping an eye on upstream and preparations underway according to the pre-release checklist.
- Quorum was achieved at this point.
- #security slack channel membership

- Noted that the membership of the channel has not been reviewed for some time.
  - ACTION: Tim to review names on the private security vulnerability channel, propose changes on the #pmc channel, and action them.
- AoB
  - Andrew joined the call so able to revisit <https://github.com/adoptium/installer/pull/612>
    - i. Proposal is to apply this change from Temurin 21LTS onwards.
    - ii. Would not retrospectively change older LTS versions.
    - iii. Expected to provide better alignment with other vendor decisions, and our ability to achieve reproducible builds.
  - Approval of minutes
    - i. Minutes of the previous meeting were approved.
- Dockerhub security updates
  - Ongoing questions about the delay in Dockerhub updating base images used for Temurin container images.
  - Check with docker to ensure that they are picking up timely baseos images.
  - Defer discussion until George is available.
- Information about Jenkins update
  - Martijn and sxa will be updating the server tomorrow morning UK time
  - This will include the very latest Jenkins updates.
