

Adoptium

Project Management Committee

Agenda & Minutes

“The PMC as a whole, and the PMC leads in particular, are ultimately responsible for ensuring that the Eclipse Development Process is understood and followed by their Projects. The PMC is additionally responsible for maintaining the Top-Level Project’s charter.” [\[ref\]](#)

Date: 2021-July-28

Agenda:

- Approval of minutes and review of [action items](#) from the previous meeting.
- July PSU Release status from [project board](#).
- Providing notice to Working Group on release and announcement.
- Informational:
 - DRASP topic - met with Sonatype folks (Steve Poole, Brian Fox, Stewart, Shelley), after release will return to this... investigate creating an extension to CycloneDX, set an example for others delivering to Maven Central
 - Website/Community centre - Hendrik, Ben Evans, Shelley meeting to flesh out plan

Action items:

Date	Description	Status
2021-06-30	ACTION: Tim to follow up about cryptography status in Temurin binaries with the EMO	In progress
2021-06-30	ACTION: Shelley to write a README for how to get to the Zenhub views of issues in the repos. for newcomers. Issue: https://github.com/adoptium/adoptium/issues/60	Open

Attendees:

- ✓ George Adams
- ✗ Stewart Addison
- ✓ Hendrik Ebberts
- ✓ Tim Ellison
- ✗ Severin Gehwolf
- ✓ Shelley Lambert
- ✓ John Oliver
- ✗ Martijn Verburg

Meeting called to order at 14:03 BST

Minutes:

- **Approval of minutes and review of [action items](#) from the previous meeting.**
 - Minutes of previous meeting were approved.
 - Actions from previous meeting were reviewed.
- **July PSU Release status from [project board](#).**
 - Completing the final JCK tests of the primary platforms.
 - MacOS 8 & 11 completed. 16 finishing off now. Looking good.
 - Windows 8 & 11 being completed now. 16 underway.
 - Linux 8 & 11 being completed. 16 underway.
 - Additional platforms are being started on automated tests at the moment.
 - Outlook is end of week for completion across linux, windows, and macOS on Intel 64-bit across Java 8, 11, and 16.
 - Results being captured and stored for future reference.
 - Eclipse have notified that Mikael is out of office next week. Which will delay secondary platform releases.
 - AIX test machines require additional configuration.
 - Not currently running JRE testing.
 - Still meeting initial set-up problems that we hope will not be repeated in future releases.
 - Plan to test the OpenJDK 8 builds on more platforms to check the configuration on secondaries.
- **Providing notice to Working Group on release and announcement.**
 - Intend to notify the WG via Slack about the expected progress on the release in order for WG members to prepare supporting announcements.
 - We won't block the release to appear at the same time as the Adoptium blog, but plan to publish the announcement on Monday - assuming the release is done!
- **Informational:**
 - **DRASP topic - met with Sonatype folks (Steve Poole, Brian Fox, Stewart, Shelley), after release will return to this... investigate creating an extension to CycloneDX, set an example for others delivering to Maven Central**
 - Productive meeting about the secure software development chain and dependency management.

- Sonatype have experience in this space. Advice is to use the CycloneDX format.
- **Website/Community centre - Hendrik, Ben Evans, Shelley meeting to flesh out plan**
 - Initial discussion of vision for community centre where Java developers can be educated on Java in general. Adoptium should not only be a download site.
 - Proposal to start with documentation and tools for new users - rather than experts. Can be supported with new website infrastructure.
 - Goal to reach out to content providers, and have the community engaged with language translations.
 - Initial work is to create the outline and vision for the site and approach.
- October 1st is Grace Hopper informational day
 - Put up some good first issues to attract new contributors.
- CanOSP also interested in student participation.
- **Eclipse Mission Control CQ created**
 - The proposal has been approved. No known blockers to get the Eclipse Mission Control release out.

Meeting closed at 14:41 BST
