

# Adoptium Project Management Committee Agenda & Minutes

“The PMC as a whole, and the PMC leads in particular, are ultimately responsible for ensuring that the Eclipse Development Process is understood and followed by their Projects. The PMC is additionally responsible for maintaining the Top-Level Project’s charter.” [\[ref\]](#)

---

**Date:** 2022-Oct-19

## Agenda:

- Welcome Carmen Delgado as PMC guest.
- Approval of [minutes](#) from October 12th meeting.
- Review of [action items](#) from previous meetings.
- Hendrik stepping down from PMC duties.
- October PSU release status
  - Release checklist ([adoptium#179](#))
  - Platform status ([adoptium#180](#))
- Alpine APK files publication ([installer#529](#))
- EclipseCon [community day agenda](#) and [presentation](#)
- SLSA badge on project page ([adoptium#160](#))
- Code Freeze policy Github action
- Input to [working group program plan](#)
- AoB

## Action items:

Date	Description	Status
2022-03-09	ACTION: George will document how the Alpine Linux JDK8u release was built and the limitations of the current build system that required this approach.	Close out

2022-07-06	ACTION: Stephanie to investigate the difference in ECC algorithms available in the Alpine MUSL 8u build ( <a href="#">temurin-build#3002</a> )	In progress
2022-07-20	ACTION: George to keep the PMC informed of progress on the repository-settings-as-code work with EF infra. <a href="https://gitlab.eclipse.org/eclipsefdn/helpdesk/-/issues/1531">https://gitlab.eclipse.org/eclipsefdn/helpdesk/-/issues/1531</a>	In progress
2022-09-07	ACTION: Shelley to raise issue to discuss potential automation of linking JBS and Adoptium support issues	Completed <a href="#">adoptium/176</a>
2022-10-12	ACTION: Tim to review what can be taken over from Documentation repos to website-v2 and then arrange for them to be archived.	Open
2022-10-12	ACTION: George and Stephanie will be assigned an issue (by Martijn) to refactor the 8u repository to move Alpine support out of main and into a separate branch/repo.	Open

#### Attendees:

- ☒ George Adams
- ☒ Stewart Addison
- ☒ Carmen Delgado (guest)
- ☒ Tim Ellison
- ☒ Severin Gehwolf
- ☒ Shelley Lambert
- ☒ John Oliver
- ☒ San Hong Li
- ☒ Martijn Verburg
- ☒ Lan Xia

#### Meeting called to order at 14:02 BST

#### Minutes:

- Welcome Carmen Delgado as PMC guest.
  - The PMC welcomed Carmen as an observer to the PMC.
- Approval of [minutes](#) from October 12th meeting.
  - Minutes of the last meeting were reviewed and approved.
- Review of [action items](#) from previous meetings.
  - Actions of the previous meetings were reviewed and updated.
  - Modify the ([temurin-build#3002](#)) action to keep PMC up to date with issues found.
- Hendrik stepping down from PMC duties.

- Hendrik has asked to move to emeritus status and this has been passed to the EMO for action.
- October PSU release status
  - Release checklist ([adoptium#179](#))
  - Platform status ([adoptium#180](#))
  - The release is underway. No blockers at present.
- Alpine APK files publication ([installer#529](#))
  - Work has continued on the APK files for Alpine packages.
  - Alpine maintainers have asked that Temurin packages are made available in the official repos. This will be difficult for them as Alpine requires that they build from source, and such newly built binaries will need to be JCKd.
  - Therefore we will host Temurin Alpine binaries in our packages repo.
  - Questions were raised in the PMC about who will maintain this Adoptium APK in the longer term.
    - i. Noted that Alpine is a supported platform in the project so these are packages expected by users. We have equivalents for other distro packages.
  - Ask is to include this for this October release, though questions about necessity.
    - i. Tim noted that this would require an exception to code freeze, and led a discussion about the appropriateness of pushing the work in progress to packages.adoptium.net
    - ii. Observed that we would prefer to host work on these in a pre-production repository.
  - The PMC asked if there is any specific testing required for this new package?
    - i. The existing tests will be valid and new ones are included.
  - Approval to merge this after code freeze and that it will become a packaging target maintained by the project alongside all the others.
- SLSA badge on project page ([adoptium#160](#))
  - Request from EF to include a SLSA badge. We expect to pass L1 & L2.
  - This would go on the Eclipse project page. We could also put it elsewhere.
  - May choose to declare progressive levels.
  - PMC asked to review the issue linked above, and be comfortable that we can assert L2 for the project.
  - ACTION: Sxa to raise a poll in the PMC channel to check folks are comfortable with Temurin's claim to Level 2 before a badge is included in the project page.
- Code Freeze policy Github action
  - George demonstrated a new GitHub action in development that implements the current code freeze policy on project repos during a release. Looking for feedback from PMC members.
  - The PMC provided feedback and outlined ideas for further enhancements that may be possible.
  - Proposal to enable for one or two repos during this cycle to get feedback.
  - Infrastructure and Installers repo would be good candidates.
  - PMC agreed, and that it would be disabled if it proved to be disruptive.
- EclipseCon [community day agenda](#) and [presentation](#)
- Input to [working group program plan](#)

- PMC are asked to review, comment and contribute to the community day and 2023 program plan via the docs or Slack channel.
- AoB
  - Information that AutoPR build through Netlify for TRSS. Approval requested.

**Meeting closed at 15:01 BST**
