

# Adoptium Project Management Committee Agenda & Minutes

“The PMC as a whole, and the PMC leads in particular, are ultimately responsible for ensuring that the Eclipse Development Process is understood and followed by their Projects. The PMC is additionally responsible for maintaining the Top-Level Project’s charter.” [\[ref\]](#)

---

**Date:** 2022-March-30

## Agenda:

- Approval of minutes from March 23 meeting.
- Review of [action items](#) from the previous meeting.
- Status update for Java 18 GA (jdk-18+36) release.
  - Release checklist ([adoptium/adoptium#130](#))
  - Platform status ([adoptium/adoptium#131](#))
- Website-v2 launch
- JavaLand feedback
- Status of MacStadium machines

## Action items:

Date	Description	Status
2022-03-09	ACTION: Shelley to start conversations on how to provide feedback to the OpenJDK community on AIX development branch testing.	In Progress

2022-03-09	ACTION: George will document how the Alpine Linux JDK8u release was built and the limitations of the current build system that required this approach.	Open
2022-03-30	ACTION: sxa to attempt to enable MacOS/aarch64 in the JDK11 build pipelines.	In progress
2022-03-30	ACTION: sxa to improve wording to help people find the latest release (JDK18)	In progress

#### Attendees:

- ☐ George Adams
- ☒ Stewart Addison
- ☐ Hendrik Ebberts
- ☐ Tim Ellison
- ☒ Severin Gehwolf
- ☒ Shelley Lambert
- ☒ John Oliver
- ☒ Martijn Verburg

#### Meeting called to order at 13:06 GMT

#### Minutes:

- Approval of minutes from March 23 meeting.
- Review of [action items](#) from the previous meeting.
- Status update for Java 18 GA (jdk-18+36) release.
  - Two platforms outstanding - AIX (blocked) and MacOS/aarch64
  - Release checklist ([adoptium/adoptium#130](#))
  - Platform status ([adoptium/adoptium#131](#))
  - Temurin Compliance retrospective on Monday next week
  - Normal release retrospective on Wednesday next week (Particular focus on issues which are specific to new major releases)
- Website-v2 launch
  - Question mark over whether to list non-17 versions on the front of the download page. Consensus was probably “yes” but will defer until a full complement of team members are present.
  - Stewart will see if an interim solution can be put in place to clarify to visitors to the site that we have a JDK18 and that JDK17 is not the latest/current non-LTS which we have available.
- JavaLand feedback
  - Good to see lots of nodding heads when mentioning Adoptium!
- Status of MacStadium machines

- Moving to next week as the knowledge was not with the people present
  - Noted that we should look at enabling more use of dynamic machines for testing. Stewart to chat with Shelley outside the meeting on feasibility.
- AoB
  - Jenkins upgrade to Ubuntu 20.04 complete and running on Temurin 11 - Stewart and Martijn will look at other updates next week
  - April release: Look at switching on JDK11 for MacOS/aarch64 now that it is included in the upstream codebases
  - MacOS/aarch64 logs on JDK17 are “large” and causing issues with TRSS (issue has been raised). We need to look at reducing verbosity somehow.

**Meeting closed at 13:29 GMT**
