Adoptium
Project Management Committee
Agenda & Minutes

"The PMC as a whole, and the PMC leads in particular, are ultimately responsible for ensuring that the Eclipse Development Process is understood and followed by their Projects. The PMC is additionally responsible for maintaining the Top-Level Project's charter." [ref]

Date: 2022-March-23

Agenda:
- Approval of minutes from March 9 meeting.
- Approval of statement about March 16 meeting.
- Review of action items from the previous meeting.
- Status update for Java 18 GA (jdk-18+36) release.
  - Release checklist (adoptium/adoptium#130)
  - Platform status (adoptium/adoptium#131)
- Website-v2 launch
- Standing up the marketplace.
  - Documentation for publishers - done.
  - API code updates, schema, and examples in main repo - done?.
  - Publishing Temurin data incl. AQAvit results - in progress.
  - Switching from disco API to marketplace database - ready.
    i. https://github.com/adoptium/website-v2/pull/132
  - Share materials with working group members and respond to feedback - done.
  - Work with publishers to bring data on-line - trial runs and go live - waiting for Temurin live data availability as example before engaging other publishers.
- Feedback from JavaLand. "Two stars and a wish."

Action items:

Date	Description	Status
2021-12-01	ACTION: Martijn to speak to Eclipse about finding a new home for PMC documentation and meeting resources currently hosted outside project control.	In progress
2022-02-23	ACTION: sxa to follow-up with Mikael about the EF automated process for GPG signing of Temurin releases. https://gitlab.eclipse.org/eclipsefdn/helpdesk/-/issues/942	Closed
2022-03-09	ACTION: Shelley to start conversations on how to provide feedback to the OpenJDK community on AIX development branch testing.	Open
2022-03-09	ACTION: George will document how the Alpine Linux JDK8u release was built and the limitations of the current build system that required this approach.	Open
2022-03-09	ACTION: John is updating the Adoptium API code to recognize the new json output from the build system and will provide a PR soon to resolve the missing nightlies.	Closed

Attendees:
- ☐ George Adams
- ☑ Stewart Addison
- ☐ Hendrik Ebbers
- ☐ Tim Ellison
- ☑ Severin Gehwolf
- ☑ Shelley Lambert
- ☑ John Oliver
- ☑ Martijn Verburg

Meeting called to order at 14:03 GMT

Minutes:
- Apologies were received from George.
- Approval of minutes from March 9 meeting.
  - Minutes of the meeting were approved.
- Approval of statement about March 16 meeting.
  - Statement was approved.
- Review of action items from the previous meeting.

- - Previous actions were reviewed and updated.
- Status update for Java 18 GA (jdk-18+36) release.
  - Release checklist (adoptium/adoptium#130)
  - Platform status (adoptium/adoptium#131)
  - Thanks to Shelley for being the "trainee" release champion under the guidance of sxa.
  - Pipelines kicked-off for the JDK18 builds. Initially failed but restarted.
  - Compliance and AQAvit testing started.
  - We are building as tag "jdk-18+36", which matches the "jdk-18+37" tag. "jdk-18+36" is the announced GA so this is the one we are using. Be aware that others may use a later tag number that refers to the same code.
  - We have a possible challenge to a JCK test. This is being pursued through the expected channels.
  - Noted that the platform status issue cannot be edited by Andrew and others. Discussed moving it to temurin-build to grant more people the write access.
- Website-v2 launch
  - Requires George to bring up to speed on the design update readiness.
- Standing up the marketplace.
  - Documentation for publishers - done.
  - API code updates, schema, and examples in main repo - done.
  - Publishing Temurin data incl. AQAvit results - in progress.
    i. Need to re-run AQAvit on historical builds to recreate the results and use this as an example for other vendors.
    ii. Expectation is that vendors, in general, only put their latest versions in the marketplace.
  - Switching from disco API to marketplace database - ready.
    i. https://github.com/adoptium/website-v2/pull/132
  - Share materials with working group members and respond to feedback - done.
  - Work with publishers to bring data on-line - trial runs and go live - waiting for Temurin live data availability as example before engaging other publishers.
    i. Will propose to the WG tomorrow to meet on Monday to walk through expectations of a vendor and the process for inclusion in the marketplace.
- Feedback from JavaLand.
  - No javaLand attendees are in the meeting, so deferred to later discussion.
- AoB
  - Question about the status of MacStadium machines. Also deferred to a later meeting.

Meeting closed at 14:30 GMT
