Meeting called to order at 14:03 BST

Minutes:

- Recognise Ludovic Henry as PMC guest observer.
  - Ludovic was welcomed to the meeting and introduced himself.
  - Ludovic is a member of the Adoptium Working Group.
- Approval of minutes from October 19th meeting.
  - Minutes of the October 19 were approved.
- Review of action items from previous meetings.
  - Actions from the previous meetings were reviewed and updated.
- October PSU release status
  - Release checklist (adoptium#179)
  - Platform status (adoptium#180)
  - We've got about 10 platforms/versions out now.
  - Hitting a few problems this time with some of the tests but progressing and no blockers identified.

- ○ As always could do with more people on the manual TCK testing.
- ○ We need some tests to be run by EF - currently blocked on that. EF infra are aware.
- ○ Loaner machines are ready to be sent out under the agreements that are now in place.
- SLSA badge on project page ([adoptium#160](#))
  - ○ Results of PMC channel poll
  - ○ Noted that we pass Level 1 and Level 2, so the ask was about adding the project badge.
  - ○ The poll was to add the badge making that claim. Remaining step is to document the reasons for the claim.
  - ○ Noted that we are also moving well to Level 3. Rather than wait we'll demonstrate Level 2 and show progress.
  - ○ PMC agreed to proceed.
- Temurin LTS Platform Focus.
  - ○ Discussion about the focus of platforms during a release cycle, and the prioritisation of the limited resources available.
  - ○ The PMC recognises that there are community members who have a strong interest in some platforms being part of the supported set. The project will continue to deliver on a broad range of platforms based upon demand, availability of people to triage and manually test platforms, machines for building and testing.
- Using system cacerts ([containers#293](#))
  - ○ This topic was deferred until Martijn can join the PMC meeting to present it.
- Stop using mirrors of OpenJDK GitHub repositories.
  - ○ PMC had some concerns about the proposal to stop using mirrors.
  - ○ Agreed to take this into the public issues discussion
- AoB
  - ○ George presented the approval bot for discussion.
  - ○ Question about maven coords for migration tooling
    - i. This is an open issue with the Eclipse Foundation (may be busy in conference at the moment)
  - ○ New member of the Microsoft team (Mia) will be onboarded to the Temurin-compliance project as approved by the PMC.
